Go to one of the computers that both students and teachers can use to return and borrow.

Step 1: Make sure the RED screen is on one of the returning/borrowing computers that are at the front of the library.

Step 2: Place the scanner on the East Para Primary School barcode. If it does not work, move the scanner around the barcode until it does. Your book name should come up.

Step 3: Find the shelf that your book belongs on and put it on that shelf. Look around the library to find another book to borrow.

REMINDEERS
- Make sure you bring your library books to your class’s borrowing and returning sessions. (Your teacher will tell when this is.)
- You do not need your library card when you are returning your books with your class.
